

ALL SAINTS' CATHEDRAL - NAIROBI

Position Title: Audio-Visual Technician

Location: All Saints' Cathedral, Nairobi

Reports To: Manager Administration and Financial Sustainability

Employment Type: Full-time

Role Overview

The Audio- Visual Technician will be responsible for managing all aspects of sound during worship services and events at All Saints' Cathedral, Nairobi. This role ensures the highest quality audio experience for both in-person attendees and those participating through live streams. The ideal candidate will have a passion for technical excellence and a commitment to supporting the worship environment.

Key Responsibilities

1. Set up, test, and operate all audio equipment for worship services, events, and special functions to ensure high-quality sound for speech, music, and multimedia presentations.
2. Mix audio during live worship services to ensure clarity and balance for musicians, vocalists, and speakers.
3. Monitor and adjust sound levels in real time to address dynamic needs during services.
4. Collaborate with the Media team to provide seamless live streaming on YouTube, Facebook, and Zoom using advanced techniques.
5. Regularly inspect, maintain, and troubleshoot audio equipment to ensure systems are fully operational and prevent service disruptions.
6. Manage and organize the Cathedral's multimedia inventory, ensuring all audio-visual equipment is in good condition.
7. Work closely with the worship team, musicians, and technical staff to ensure a smooth worship experience for both in-person and online participants.
8. Train, supervise, and provide support to interns and volunteer sound technicians, offering guidance and feedback to improve their skills.
9. Record and archive audio from worship services and events for future use, ensuring content is accessible and of high quality.
10. Stay current with new audio technologies, recommending and implementing enhancements to the sound system to support the Cathedral's mission and worship experience.

Educational Background

- Minimum of Diploma in Audio Engineering, Sound Production, or a related field.
- A degree in Sound Engineering will be an added advantage.
- At least 3-5 years of experience in live sound production, preferably in a worship or large event setting.
- Proficiency in operating digital and analog sound consoles, microphones, and other audio peripherals.
- Strong technical skills in sound system setup, live mixing, and audio troubleshooting.
- Basic Video recording and editing skills.
- Excellent communication and interpersonal skills to work effectively with various teams.
- Ability to work under pressure and manage multiple tasks in a dynamic environment.

Personal Attributes

- A strong commitment to the Christian faith.
- A team player with a servant heart and a positive attitude.
- High attention to detail and a proactive approach to problem-solving.
- Flexibility to work during weekends, evenings, and holidays as required by the worship schedule and events.
- Ability to lift and move heavy audio equipment as needed.
- Having worked in a church set up is an added advantage.

If you are ready to make a difference and serve with purpose, we invite you to apply for the position of Audio-Visual Engineer at All Saints' Cathedral, Nairobi.

Apply today and help us shape the future of the Church!
